

Избранные публикации ведущей организации Федеральное государственное бюджетное учреждение науки Институт общей и неорганической химии им. Н.С. Курнакова Российской академии наук по тематике защищаемой диссертации.

1. Stolarov I., Yakushev I. A., Churakov A. V., Cherkashina N. V., Smirnova N. V., Khramov E. V., Zubavichus Y. V., Khrustalev V. N., Markov A. A., Klyagina A. P., Kornev A. B., Martynenko V., Gekhman A. E., Vargaftik M., Moiseev I. I. Heterometallic Palladium(II)-Indium(III) and -Gallium(III) Acetate-Bridged Complexes: Synthesis, Structure, and Catalytic Performance in Homogeneous Alkyne and Alkene Hydrogenation // *Inorganic Chemistry*. 2018. Vol. 57. No. 18. pp. 11482-11491.
2. Vorobyeva D. V., Petropavlovskikh D. A., Godovikov I. A., Nefedov S. E., Osipov S. N. Rh(III)-Catalyzed C–H Activation/Annulation of Aryl Hydroxamates with CF₃-Containing α -Propargyl α -Amino Acid Derivatives // *European Journal of Organic Chemistry*. 2021. Vol. 2021. No. 12. pp. 1883-1890.
3. Chepaikin E. G., Bezruchenko A. P., Menchikova G. N., Gekhman A. E. Homogeneous oxidation of alkanes: Role of rhodium–alkyl complexes // *Journal of Molecular Catalysis A Chemical*. 2017. Vol. 426. pp. 389-392.
4. Vorobyeva D. V., Petropavlovskikh D. A., Godovikov I. A., Dolgushin F. M., Osipov S. N. Synthesis of Functionalized Isoquinolone Derivatives via Rh(III)-Catalyzed [4+2]-Annulation of Benzamides with Internal Acetylene-Containing α -CF₃- α -Amino Carboxylates // *Molecules*. 2022. Vol. 27. No. 23. p. 8488.
5. Il'in E. G., Parshakov A. S., Teterin A., Maslakov K. I., Yarzhemsky V. G., Teterin Y. Study of the Reaction Products of TaCl₅ with Acetylene in Benzene—a Catalyst for Alkyne Cyclotrimerization // *Inorganic Materials*. 2022. Vol. 58. No. 8. pp. 845-853.
6. Petropavlovskikh D. A., Vorobyeva D. V., Godovikov I. A., Nefedov S. E., Filippov O. A., Osipov S. N. Lossen rearrangement by Rh(III)-catalyzed C–H activation/annulation of aryl hydroxamates with alkynes: access to quinolone-containing amino acid derivatives // *Organic and Biomolecular Chemistry*. 2021. Vol. 19. No. 43. pp. 9421-9426.
7. Roitershtein D. M., Puntus L. N., Vinogradov A. A., Lyssenko K. A., Minyaev M. E., Dobrokhodov M. D., Taydakov I. V., Taidakov I. V., Varaksina E. A., Churakov A. V., Nifant'ev I. E. Polyphenylcyclopentadienyl Ligands as an Effective Light-Harvesting μ -Bonded Antenna for Lanthanide +3 Ions // *Inorganic Chemistry*. 2018. Vol. 57. No. 16. pp. 10199-10213.
8. Minyaev M. E., Vinogradov A. A., Roitershtein D. M., Borisov R. S., Ananyev I. V., Churakov A. V., Nifant'ev I. E. Catalytic activity of phenyl substituted cyclopentadienyl neodymium complexes in the ethylene oligomerization process // *Journal of Organometallic Chemistry*. 2016. Vol. 818. pp. 128-136.
9. Mcleod N. A., Kuz'mina L. G., Churakov A. V., Mountford P., Nikonov G. I. Group 5 hydride and borohydride complexes supported by cyclopentadienyl- imido ligand sets // *Dalton Transactions*. 2014. Vol. 43. No. 1. pp. 188-195.
10. Leelasubcharoen S., Zhizhko P. A., Kuz'mina L. G., Churakov A. V., Howard J. A., Howard J. A. K., Nikonov G. I., Nikonov G. I. Niobium/rhodium bimetallic complexes: synthesis,

structure, and catalytic hydrosilylation of acetophenone and benzaldehyde // Organometallics. 2009. Vol. 28. No. 15. pp. 4500-4506.
