

Список избранных публикаций Газиевой Галины Анатольевны, доктора химических наук, ведущего научного сотрудника лаборатории азотсодержащих соединений Федерального государственного бюджетного учреждения науки Института органической химии имени Н.Д. Зелинского Российской академии наук (ИОХ РАН).

1. Kravchenko A.N. et al. Transformations of S-substituted 5,7-dimethyl-4a,5a-diphenyl-3-thioxoperhydroimidazo[4,5-e]-1,2,4-triazin-2-ones under treatment of 1,2-benzoquinones and photochemical properties of reaction products // *Tetrahedron*. – 2018. – Vol. 74, – № 19. – P. 2359–2368.
2. Izmet'ev A.N. et al. 5-Indolylidene-2-iminothiazolidin-4-ones – Convenient Starting Compounds for Stereoselective Synthesis of Novel Dispirooxindole Derivatives // *ChemistrySelect*. – 2022. – Vol. 7, – № 2. – P. e202104128
3. Izmet'ev A.N. et al. Synthesis and evaluation of the antiproliferative activity of new heterylmethylidene derivatives of imidazothiazolotriazinones // *New Journal of Chemistry*. – 2021. – Vol. 45, – № 27. – P. 12271–12285.
4. Vinogradova E.E. et al. Dimroth-type N/S-interchange of N-aminothioglycolurils in the synthesis of 2-hydrazonoimidazo[4,5-d]thiazolones // *RSC Advances*. – 2021. – Vol. 11, – № 45. – P. 28395–28400.
5. Izmet'ev A.N. et al. Synthesis of functionalized imidazo[4,5-e]thiazolo[3,2-b]triazines by condensation of imidazo[4,5-e]triazinethiones with DMAD or DEAD and rearrangement to imidazo[4,5-e]thiazolo[2,3-c]triazines // *Beilstein Journal of Organic Chemistry*. – 2021. – Vol. 17. – P. 1141–1148.
6. Izmet'ev A.N. et al. Synthesis of 5-arylmethylidene-3-(arylmethylideneamino)thiazolidine-2,4-diones via triazine ring cleavage of tetrahydroimidazothiazolotriazinediones and their reactions with azomethine ylides // *Chemistry of Heterocyclic Compounds*. – 2020. – Vol. 56, – № 12. – P. 1569–1578.
7. Izmet'ev A.N., Gazieva G., Kravchenko A.N. Regioselectivity of (3+2) cycloaddition of azomethine ylides to activated olefins in the synthesis of

spiro[oxindole-3,2'-pyrrolidine] derivatives // Chemistry of Heterocyclic Compounds. – 2020. – Vol. 56, – № 3. – P. 255–264.

8. Vikrishchuk N.I. et al. Synthesis of 1,2,4-triazolo[5',1':2,3][1,3]thiazino[6,5-b]indol-10(5H)-ones based on 2-chloro-1H-indole-3-carbaldehyde // Tetrahedron Letters. – 2020. – Vol. 61, – № 45. – P. 152490
9. Izmet'shev A.N. et al. Skeletal rearrangement of arylmethylideneimidazo[4,5-e]thiazolo[3,2-b]-1,2,4-triazine-2,7-diones in the synthesis of the corresponding imidazo[4,5-e]thiazolo[2,3-c]-1,2,4-triazine-2,8-diones // New Journal of Chemistry. – 2019. – Vol. 43, – № 2. – P. 1038–1052.
10. Gazieva G.A. et al. Synthesis of N-{5-Oxo-2-thioxo(2,5-dithioxo)hexahydroimidazo-[4,5-d]imidazol-1(2H)-yl}formamides // Synlett. – 2017. – Vol. 28, – № 7. – P. 858–862.
